

G.Vinoth

Chennai | +91 9629319876 | vinothgunasekaran3@gmail.com |

PROFILE SUMMARY

Aspiring **Cloud Engineer** with expertise in **Azure networking, security, and automation**. Experienced in **designing and implementing secure, scalable cloud architectures** using **Azure Virtual Networks (VNets), Network Security Groups (NSGs), VPN Gateway, and Load Balancers**. Certified in **Microsoft Azure Fundamentals**, with hands-on experience in **cloud security, virtual machines, storage, and automation**.

Background in **industrial automation (PLC, SCADA, IoT), IT-OT integration, and network security**, providing a unique edge in cloud-based solutions for enterprise and industrial environments. Passionate about **infrastructure automation, cloud security, and scalable deployments**. Strong problem-solving skills and a commitment to continuous learning in cloud technologies.

CERTIFICATION & TRAINING

- Advanced Cloud Computing with Microsoft Azure @ GUVI, Chennai
- PLC, SCADA, DCS, Field Instruments, Foundation Field Bus @ Yokogawa India Ltd, Chennai

FUNCTIONAL SKILLS

CLOUD SKILLS

- **Cloud Networking Architecture** – Designing and implementing secure, scalable, and high-performance Azure network solutions.
- **Virtual Networking (VNet)** – Configuring VNets, VNet Peering, Subnets, and Private Endpoints for secure connectivity.
- **Hybrid Cloud Connectivity** – Implementing VPN Gateway, Express Route, and VNet-to-VNet connections.
- **Load Balancing & Traffic Management** – Managing Azure Load Balancer, Application Gateway, Front Door, and Traffic Manager.
- **Network Security & Compliance** – Configuring NSGs, Azure Firewall, DDoS Protection, and Web Application Firewall (WAF).
- **Identity & Access Control** – Implementing Azure AD, Private Link, Service Endpoints, and RBAC for network security.
- **Microservices & Containerization** – Developing and deploying applications using Docker.

INDUSTRIAL AUTOMATION SKILLS

- **PLC Programming & Troubleshooting** – Expertise in Beckhoff, Siemens, Schneider, and other PLCs.
- **HMI & SCADA Development** – Designing and configuring Human-Machine Interfaces and Supervisory Control and Data Acquisition systems.
- **Industrial Automation** – Implementation of automation solutions for manufacturing and process industries.
- **Control System Design** – Designing, testing, and optimizing control systems for industrial applications.
- **Field Instrumentation** – Knowledge of sensors, actuators, and industrial communication protocols (Modbus, Profibus, Ethernet/IP).
- **Electrical & Panel Design** – Understanding of control panel wiring, schematics, and circuit design.
- **Robot & Motion Control** – Integration of robotics and motion control systems with PLCs.
- **Troubleshooting & Maintenance** – Diagnosing and resolving automation system faults to minimize downtime.
- **Process Optimization** – Enhancing system performance, efficiency, and safety in industrial environments.
- **Industrial Communication** – Working with protocols like OPC, MQTT, and IIoT for data exchange.
- **Industrial IoT (IIoT) Applications** – Implementing IIoT in manufacturing, automation, and smart factories.

TECHNICAL SKILLS

CLOUD SKILLS

- **Cloud Infrastructure:** Virtual Machines (VMs), Azure Storage, Blob Storage
- **Azure Networking:** VNets, NSGs, VNet Peering, VPN Gateway, ExpressRoute
- **Security & Compliance:** Azure AD, IAM, RBAC, Private Link, Service Endpoints
- **Traffic Management:** Load Balancer, Application Gateway, Traffic Manager
- **Infrastructure as Code (IaC):** Terraform, ARM Templates
- **Monitoring & Logging:** Azure Monitor, Log Analytics, Network Watcher
- **Scripting & Automation:** PowerShell, CLI,
- **Programming & Scripting** –VB.Net, C#, JavaScript, PowerShell
- **Cloud Tools** – Azure CLI, Docker, Storage Explorer, GitHub, Visual Studio

INDUSTRIAL AUTOMATION SKILLS

- **Programming & Scripting** – Ladder Logic, Structured Text
- **PLC Programming Tools** – Beckhoff TwinCAT, Siemens TIA Portal, Schneider SoMachine Basic, Mitsubishi GX Works, Delta WPLSoft, Omron CX Programmer.
- **SCADA & HMI Software** – Beckhoff Polaris, Siemens WinCC, Schneider Vijeo Designer, Exor JMobile.
- **Electrical Design Tools** - AutoCAD Electrical, EPLAN.
- **Control System Design** – Electrical Schematics, P&ID diagrams, Control Panel design.
- **Industrial Communication Protocols** - Modbus, Profibus, OPC UA, Ethernet/IP, Ethercat.
- **Field Instrumentation** – Sensors, Actuators, PID tuning, VFD, Industrial Protocol integration.

PROJECT DETAILS (Cloud)

1. Azure Application Gateway Implementation

- Designed and deployed a secure, scalable architecture using Azure Virtual Networks, Network Security Groups, and Application Gateway.
- Built a multi-tier application with separate VNet's for the web frontend, business logic, and database layers.
- Configured Application Gateway with:
 - Health probes for automatic traffic rerouting
 - Path-based routing for efficient request handling
 - Web Application Firewall (WAF) for enhanced security
 - Auto-scaling to manage traffic fluctuations

2. Azure Micro-Segmentation Architecture

- Designed and implemented micro-segmentation in Azure by dividing Virtual Networks into secure, workload-based segments.
- Applied Network Security Groups (NSGs) to enforce strict access controls and minimize the attack surface.
- Deployed Azure Firewall to centrally manage inbound/outbound traffic with granular rules for source, destination, ports, and protocols.
- Integrated security features like Web Application Firewall (WAF) and IDS/IPS for advanced threat protection.
- Used Application Security Groups (ASGs) for fine-grained access control at the application level.

PROJECT DETAILS (Automation)

1. **Voltage Monitoring System using Web Server** @ National Institute of Wind Energy.
2. **BTU - Sintering Furnace Control System** @ Carborundum Universal Ltd.
3. **Tunnel Kiln DAQ System (IndustryIOT 4.0 Project)** @ Carborundum Universal Ltd – Bonded Division.
4. **Hot Water System Control Panel** @ Armstrong International Pvt Ltd.
5. **Remote Data Monitoring through Wireless for STP Plant** @ Chettinad Cement Corporation Ltd.

EMPLOYMENT HISTORY (Previous)

- **Husky** | Software & Controls Designer | Nov-2019 – Present
- **FLSmith** | Design Engineer | Aug-2019 – Oct-2019
- **ELDAC** | Sr.Project Engineer | May-2015 – Aug-2019

EDUCATION

- **B.E – E&I** | Adhiyamaan College of Engg | 7.85 CGPA | 2013
- **HSC** | Tagore Matric. Hr. Sec. School | 86.5% | 2009
- **SSLC** | Dr.Navalur Nedunchezhiyan Matric. Hr. Sec. School | 73.5% | 2007
